The Honorable Thomas V. Mike Miller, Jr.  
State House, H-107  
11 Bladen Street  
Annapolis, Maryland 21401-1991

Dear Senator Miller:

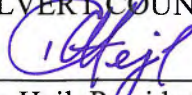

We recently received confirmation from the Maryland State Highway Administration that preliminary design has been completed for the MD 4 widening project from Fishers Station Road to MD 258. Currently, the semi-final design review is scheduled for March 2017. We understand the project is currently funded at \$1 million for design; however, a final design schedule cannot be completed until the project is fully funded for right-of-way, utility relocations, and construction.

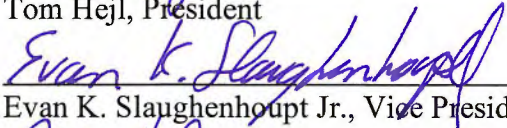

The vast majority (approximately 60%) of our workforce commuters travel through this area every day. These improvements will have a direct, positive impact on the daily lives of thousands of our citizens as they travel to work. To that end, this Board fully supports this important project, as it will improve northbound MD 4 by adding paved inside and outside shoulders, improving the Talbot Road intersection, realigning the MD 4 exit ramp (MD 794) at MD 258, and relocating the school bus stop from MD 4 mainline onto the side street.

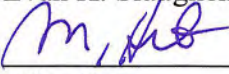

We encourage you to keep this project progressing by committing the funding necessary to complete it.

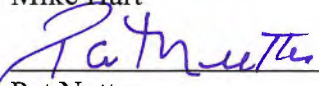

Sincerely,

BOARD OF COUNTY COMMISSIONERS  
CALVERT COUNTY, MARYLAND
